

Hi Tanner Families!

Welcome back for Term 3! We are excited to be back and see everyone's smiling faces!

This term we're starting our new inquiry unit and we're very excited to be exploring "Our Place in Space" where we will be looking at the planets and how our position in space affects our weather.

To start off our tuning in we have had a very special visit from an alien! His name is Zip and he has come from the planet Zig-Zorg. We need to find out more information about the earth and the other planets around us in order to save our planet! We will be getting more challenges from the aliens over the next few weeks!

Upcoming Events:

- **Saturday 29th July**
Winter Wonderland Fete
- **Tuesday 8th—10 August**
