

Term 3 Week 4

This term, we have been busy reintroducing our Maths groups across the building. Our goal is for every child to feel successful when working with numbers, so our activities tend to be hands on and game based.

In their WIN or Targeted Support Groups, students have been exploring place value to hundreds, thousands, or hundred thousands. Students have been practising the 'doubles, near doubles' strategy, and partitioning numbers into smaller parts. We have also been busy visualising, or making numbers using concrete materials, and building confidence in counting forwards and backwards from any given number.

Upcoming Events

- 11/08 - Assembly at 9:15am**
- 14/08 - Conder Wetlands Excursion**
- 17/08 - Athletics Carnival**
